ACCOMMODATION

1. *What hotel will the parties be held at? (the most frequently asked question)*

The parties will be held not in the GFL 2019 hotels; the place is top secret now, but it's very close to the hotels.

2. *What hotel are the loud teams staying at?*

The answer is very simple – Park Inn by Radisson 4*. We've prepared the best choice for you. This hotel is fully booked for the GFL-ers and no one will disturb you unless you decide to dismantle the hotel building brick by brick 😊

3. *Are there any triple rooms in the hotels?*

There are a few family suites at Park Inn by Radisson Rosa Khutor 4* that can accommodate three people; however, each suite is assigned a ski room which is too small to fit in three pairs of skis or snowboards. That is why we have decided to offer you double rooms.

We have negotiated a generous discount for GFL participants and guarantee the best deal for your stay in a double room so that it is comfortable and enjoyable for you, dear friends!

Radisson Rosa Khutor Hotel 5* only has double rooms.

VISA SUPPORT

I would like to remind you once again that we will send you an invitation letter for your visa application after we have received your payment.

If you want to come to Saint-Petersburg for the pre-GFL 2019 in October or spend some time in Moscow before you go to Sochi, we advise you to register in advance so that you have two invitation letters to apply for a multiple entry visa to Russia. However, please bear in mind that the decision on the number of entries for your visa remains at the consulate's discretion.

INFO

We kindly ask you to update your and your team's general details (phone number, billing address, new password etc.) once you log into the GFL 2019 Registration Portal! If you want to change the Team Name (we used the names of the last GFL edition), no problem, just let us know!

If you still don't have your login and password, check the spam folder in your email box, it might be there! If not, just contact our support service at info@gfl2019.com.

Best regards,
Sergey Polozov
